Emerald Cultural Institute,
An investment in the future

Our students come from a wide variety of different cultural backgrounds and age-groups. Whether they need English for work, study or travel, our aim is to help them achieve their academic goals during their time with us.

The academic staff work closely with students to develop a clear study plan based on their language level and learning objectives. Throughout the programme students’ progress is closely monitored by their class teachers and by the Director of Studies.

Personal Study Path

Students can choose from a wide range of courses including general English, examination preparation, business English, foundation and internship programmes.

All students have a written and oral placement test on arrival. Once they are placed in the appropriate level our teachers and academic team support each student during the programme to monitor progress. We use the Common European Framework of Reference for Languages (CEFR) to assess each student’s level and the personalised study path indicates their expected progress.
A student’s progress is dependent on a number of factors including attendance, ability, motivation, and the length and type of programme.

Visa and Immigration Guidelines

All non-EU students should check with their nearest Embassy or Consulate to verify if they require a visa to study in Ireland or refer to the Irish Naturalisation and Immigration Service (INIS) website www.inis.gov.ie for full details of the online application procedure.

It is the responsibility of enrolling students to provide documentation in accordance with the appropriate visa procedures as advised by the Irish Naturalisation and Immigration Service (www.inis.gov.ie) and/or the appropriate Irish embassy or consulate.

It is a requirement for all non-EEA and non-EU students who intend staying for more than 90 days to register with the Garda National Immigration Bureau (GNIB). Registration needs to be completed within 30 days of arrival to Ireland. The Student Welfare Officer will assist the student with the required documentation and procedures. Students staying for more than 90 days should pay a deposit to the school for a recognised English examination to be taken before the end of their course.

Medical and Travel Insurance

All students studying in Ireland must obtain appropriate medical insurance in their own country before departure and students are also advised to take out travel insurance to cover accident or loss of baggage. Medical insurance can be arranged for non-EU students by the institute on request. Please check our Terms & Conditions for medical insurance requirements for Non-EU students.

Students travelling to Ireland from EU countries must bring their European Health Insurance Card with them. Non-EU students who require a visa to study in Ireland will need to submit full details of their medical insurance policy to the immigration bureau when registering with the GNIB and they are required to have adequate medical insurance valid for their entire stay in Ireland. The policy should be submitted in English or accompanied by an English translation.

Students are not insured by the school or by the host family against injury, illness, theft or loss of personal effects and the school accepts no responsibility in the event of such occurrences. Personal insurance cover is therefore recommended.
